UPSURGE OF TUBERCULOSIS IN THE UNIVERSITY COMMUNITY

This is to inform members of the University community of the upsurge of tuberculosis among the populace. It is suggested that if anyone has been coughing for more than three (3) weeks with fever, insomnia due to sweating at night, weight loss as well as loss of appetite, such a person should please report at the University Health Service (Jaja Clinic) for medical investigation and care. The entire medical care is **free**.

The need for good personal hygiene, proper ventilation, attention to balanced diet and exercises should be the practice in respect of all who reside on campus please.

Thank you.

Signed
Omotayo O. Ikotun (Mrs.)
Registrar
