ERECTION OF SIGNPOSTS/BILL BOARDS ON THE UNIVERSITY CAMPUS

It has come to the notice of the University Administration that some students go out to solicit for support and sponsorship, which may sometimes lead to the erection of various signposts/bill boards for the purpose of advertising both the organization and the student body. The University in a bid to keep its environment friendly and serene for academic activities cannot afford to litter same, with too many signposts/bill boards.

In view of the above, student organizations are hereby advised to note that the University will no longer accede to requests for the erection of signposts/bill boards especially in the strategic areas of the campus.

Students are therefore advised not to solicit for any support that would require erection of signposts/bill boards please.

Thank you.

Omotayo O. Ikotun (Mrs.)
Registrar
