Special Release

28 November 2012

## ROUTINE MAINTENANCE OF THE UNIVERSITY WATER TREATMENT PLANT

This is to inform the University community that the University Water Treatment Plant will be shut down for two weeks with effect from Friday, 30 November to Friday, 14 December, 2012.

This is to pave way for the repairs of two out of three clarifiers of the existing Water Treatment Plant.

The repairs will involve major electrical and mechanical works.

On this note, water production and supply to the University community will be drastically reduced.

Residents are, therefore, advised to make adequate arrangements for water storage during the period of shut down.

Any inconvenience(s) arising from the above is regretted.

Thank you.
