
Kindly find below the information requested on Health and the Health Service

To improve health and wellbeing outcomes, the University Health Service of the University of Ibadan has collaborations local and international. The Health Service collaborates with

1. The University College Hospital Ibadan for Tertiary Care Services to both students and staff – (clinical care).
3. Federal Ministry of Health – Port Health Service for International travels vaccination including yellow fever.
4. Non-governmental organizations:
   a. Belgian government - Damien Foundation for the control and management of tuberculosis and leprosy.
   b. Roll Back Malaria for the prevention and treatment of malaria.
   c. Nigerian-Urban Reproductive Health Initiative for family planning programmes.
   d. Association of Reproductive Health (ARFH) for family planning programmes.

The University Health Service is also into outreach programmes – slot on Diamond FM for enlightenment on health and health matters.

Health visits to Communities, Halls of Residence and Residential Homes.

Faculty health visits – where each month is dedicated to address a particular health issue and programmes are taken to the faculties by the wellness team of the health service.
Wellness programme - the outreach arm of the health service is into periodic screening of staff and students. Diseases screened include hypertension, Diabetes Mellitus, Hepatitis, Refraction error (vision), Tuberculosis etc.

Youth Friendly Centre is a one stop centre where health information and interventions are administered in an informal (non-hospital) setting under the guise of recreation.

Drug Use and Misuse Committee of the health service also collaborates with sister organizations such as Gender Mainstreaming, CENSO (Centre for Social Orientation) and NAFDAC (National Agency for Food and Drug Administration and Control) to check the menace of drugs in the community.

The Tuesday Mental Health Specialist Clinic is manned by clinical psychologists, Child and Adolescent Psychiatrists and Nurses who manage Mental Health issues. This clinic is open to students, staff and dependants including those with situational crises.

Thank you.

Dr. O.O. Akingbola
Director
